SPECIAL NEEDS CARE COORDINATION

CareHaven.org

The quiet home for complex care.

SCAN TO JOIN THE BETA LIST

An iPhone app that carries the **mental load** of complex care. Built for caregivers of people with **autism**, **ADHD**, **epilepsy**, **Down syndrome**, **dementia**, **developmental delays**, and other complex care needs — it holds every dose, meltdown, and win in one quiet place, so your brain doesn't have to.

- ✓ **One-tap handoff** for sitters, respite workers, even grandparents
- ✓ **Doctor visits recorded and transcribed** on-device
- ✓ **Pattern insights** across feedings, sleep, behavior, and meds
- ✓ **Hands-free logging** via Siri, Apple Watch, Lock Screen widgets
- ✓ **Private by default** — care data lives only on your iPhone

Open beta coming soon — no tech skills required.

Add your email at carehaven.org/beta to hear when the open beta starts. Then simply use the app like normal and tell us what features or options would best **support your situation**.

Your input directly shapes what's included when CareHaven launches on the Apple App Store.
