

SPECIAL NEEDS CARE COORDINATION

CareHaven

The quiet home for complex care.

SCAN TO JOIN THE BETA

An iPhone app that carries the **mental load** of complex care. Built for caregivers of people with **autism, ADHD, epilepsy, Down syndrome, dementia, developmental delays**, and other complex care needs — it holds every dose, meltdown, and win in one quiet place, so your brain doesn't have to.

- ✓ **One-tap handoff** for sitters, respite workers, even grandparents
- ✓ **Doctor visits recorded and transcribed** on-device
- ✓ **Pattern insights** across feedings, sleep, behavior, and meds
- ✓ **Hands-free logging** via Siri, Apple Watch, Lock Screen widgets
- ✓ **Private by default** — care data lives only on your iPhone

Beta testers wanted — no tech skills required.

Simply use the app like normal and tell us what features or options would best **support your situation**. We want to know what you like, what you don't, what you expected, and what you'd want added or changed.

Your input directly shapes what's included when CareHaven launches on the Apple App Store.
