

CareHaven

The quiet home for complex care.

An app that carries the **mental load** of caring for someone with complex needs — **autism, ADHD, epilepsy, Down syndrome, dementia**, and more.

- ✓ **One-tap handoff** for sitters & respite
- ✓ **Doctor visits** recorded, **patterns** surfaced
- ✓ **Private by default** — data stays on your iPhone

Beta testers wanted — No tech skills needed.

Simply use the app like normal and tell us what features or options would **best support your situation.**

Your input directly shapes what's included when CareHaven launches on the Apple App Store.
